No. 7

COUNCIL SAT FIVE HOURS

New Pound By-law Passed—Coal Contract Let

A good deal of routine work was done through in short order at the meeting of the city council last evening, and it appeared as though the sitting would be a brief one, but the evergreen pound by-law came up for discussion again and dispelled all hopes of a speedy conclusion.

CORRESPONDENCE.

After the reading and adoption of the minutes, original communications were taken up and dealt with. An application by H. F. Sandeman on behalf of the owners of the Irvine Estate and Richmond Park for the opening up of streets in these subdivisions was referred to the public works committee with power to act.

H. E. Cutler wrote stating that he intended the Union Street Schoolhouse of Strathcona to run on a school on Labor Day, Sept. 7th, to other Red Deer or Strathcona, and asking for information as to available picnic grounds. It was decided to inform the use of the agricultural park.

John Walter asked for the extension of the waterworks and sewer system to lots 33 to 36 in Block C on the north side of Third Avenue north. The water and sewer committee were instructed to consider the matter and report.

The Dominion Securities Company were stating that as their legal adviser was of the opinion that by-law was invalid, they could not accept the detentions issued under the by-law. The city solicitor explained that the by-law was invalid by reason of the fact that it was not given its final reading in council until five weeks after it had been voted on, whereas the city charter required that not more than four weeks must elapse. This fault might, he said, be cured by legislation, and he thought the municipal bank would purchase the detentions.

It was resolved after some discussion that the Dominion Securities Corporation be notified that the detentions in question were withdrawn as far as the sale to them was concerned.

George F. Downes, city police magistrate, wrote saying that he had applied two months ago for an increase of salary to \$50 per month, and the application had been refused after he had referred to a committee who had advised him with regard to the matter and never made enquiry as to the amount of work which the position involved. He now asked for an increase to \$60, and said he would resign if this application were treated like the previous one by a committee.

Ald. Richards explained that the committee had a report given by Mr. Downes as to the proceeds of police court proceedings to go by in making up their report on the previous application.

The mayor and Ald. Bush and Sheppard were named as a committee to look into the matter and report.

Copies were read of telegrams which had passed between Mayor Duggan and the mayor of Ferrie with regard to the sending of relief to the sufferers by the big fire in the Crow's Nest Pass and it was resolved that the Mayor and Ald. Bush arrange to send a car of oats and feed.

A number of ratepayers on the

bridge flats petitioned for water and sewer connections and the water and sewer committee and the engineer were asked to make inquiries and report. Mr. Prevey, of the Edmonton Dairy, spoke in support of the petition, saying that his firm would have to move across the river unless the petition was granted.

A summons issued by J. E. McGee-Gardner against the city was read and referred to the city solicitor and Ald. Richards, who was acting Mayor at the time of the police inquiry. The summons was for \$85 for work done as court stenographer at the inquiry. It will be remembered that at the last regular council meeting it was decided to order Mr. Gardner \$45 to settle his account.

In response to a request by the first brigade for a check for the amount of purchase money of the team recently taken over by the city, it was resolved that this sum be paid out of current account.

REPORTS OF COMMITTEES.

The Public Works committee reported in regard to the cutting-down of the grade at the top of the hill on the bridge road that \$120 had been subscribed for the works and Mr. Malcolm McCrimmon had offered to do it at \$20 per yard.

It was resolved that the city contribute a dollar for every dollar otherwise raised.

The police committee reported in favor of the payment of the salary of ex-Chief Constable Patterson during the time of his suspension at the rate of \$75 per month, and while he served as a constable afterwards at \$60 per month; and recommending the payment of Jas. Robinson at the rate of \$75 per month while he acted as chief of police. The report was adopted, and then Alderman Richards asked a matter of privilege to be allowed to move that Frank Harris be also paid for the time during which he was under suspension. Alderman Sheppard seconded, but no one else voted for the motion which was therefore lost.

The water and sewer committee reported that as the cost of extending the waterworks system to the church on Walter's flat would be \$450, and as it would be very seldom used, they could not recommend the undertaking of the work. The report was adopted.

The name Committee recommended to the favorable consideration of the council the application for the extension of the water and sewer system to the Sletton-subdivision.

Council accepted a report of the city engineers that the cost of running a sewer from the line between the Sletton-subdivision.

A by-law was passed authorizing a temporary loan of \$5,000 for the construction of concrete walls, pending the completion of the sewer.

NEW POUND BY-LAW PASSED.

The new pound by-law was under discussion for a long time in committee of the whole, and after being amended in many particulars was finally passed. The chief of police was appointed poundmaster, and Chris Young assistant.

The demand by Messrs. Holbert and Wilson for the return of the marked check which accompanied their petition for sewer extensions came up, and it

Rifle Shooting

It was decided that the contract with Holbert & Wilson be signed and the check returned.

THE COAL TENDERS.

The tenders for the city's supply of coal were opened and read as follows: Strathcona Coal Co., screened large coal, 63.25 per ton; screened 62.25; mining run, \$2.75. Great Northern Coal Co., \$2.50, \$1.00 \$2.00.

Inter-Provincial Coal Co., \$3.25, \$1.95, \$2.95. Edmonton Standard Coal Co., \$2.65, \$2.25.

Dawson Coal Co., \$2.25, \$2.00, \$1.00.

The tender of the Great Northern was for coal delivered at a switch near the Edmonton power house. The price delivered at the C.P.R. depot here would be 30c more, and a further 40c would be required for cartage so the Strathcona power house.

Readers had been asked for the supply of coal until November 30, and also for one year from that date. The offer of the Standard Coal was the only one made for the shorter period, and it was estimated that their price for the year would be 10c higher.

It was decided, after discussion, to take mine run coal. The two lowest tenders for this class were those of the Standard Coal Co., \$3.25, and the Strathcona Co., \$2.75. The awarding of the contract to the Standard Coal Co. would have effected a saving of \$1,200, but the majority of the aldermen favored the acceptance of the Strathcona Co.'s tender, as the latter had a large payroll which benefited this city.

Eventually they were given the contract, the mayor and Alderman Cameron voting against.

The question of the placing of the poles at the street railway system, was raised by Engineer McLean, and it was resolved that a line of poles be required to be placed along each side of the tracks, with wires strung between.

The council sat until after one o'clock in the morning, breaking all records.

The Fate of the "Daniels"

Tacoma, Aug. 3.—Six months ago the little town of Milton near Tacoma passed a bachelor tax ordinance. There were, at the time, by actual count, just 23 bachelors in the place. Since then 14 of these have taken the hint and married. Hearing of the good that was coming the way of Milton bachelors, others have been coming there until there are now 37 bachelors by count. Miss Mary J. James, a bachelor girl of Milton, now declares that bachelor girls are also flocking there in such numbers that the chances of matrimony for the original bachelor girls who were in Milton at the time the ordinance was passed are lessening in an inverse ratio, and in the past few weeks the bachelors have become inclined to be independent and critical.

THE FORT FAIR

Fort Saskatchewan's Annual Industrial Exhibition Held Yesterday

The annual Fort Saskatchewan Industrial Exhibition was held yesterday and was well attended. The display of exhibits was a splendid one, both as regards numbers and quality, and altogether the fair must be pronounced a great success. The judging was done under the supervision of H. A. Craig, provincial superintendent of fairs, who also undertook the awarding of the prizes on vegetable and dairy products. E. C. Hallman was judge of horses, B. D. Clarke, of cattle, sheep, swine, grains and grasses, A. W. Foley, of poultry, and Mrs. J. Chalmers and Mrs. W. A. Brown of ladies' work.

At two o'clock in the afternoon, when the judging was over, the sports commenced. The first event was the five mile foot race, for which there were eight starters, viz., McCulloch, Fort Saskatchewan; Williams, Edmonton; Gordon, Fort Saskatchewan; Fraser, Fort Chipewyan; Rowland, Fort Chipewyan; Turner, Edmonton; McCague, Edmonton; Gidley, Fort Saskatchewan.

Turner took the lead at the start, but soon retired and was replaced by Fraser, who kept in front to the finish, gradually widening the gap between himself and his nearest competitor, Gordon, who was about 100 yards behind at the finish. McCague was third. The winner's time was 29 minutes, 35 seconds.

The horse races were then commenced and resulted as follows: Free-for-all, best three in five, 1. Bon Hill, 2. Lamer, 3. Hall, 3. Bon Hill.

Annex Jr. 1. Bon Hill, 2. Lamer, 3. Hall, 3. Bon Hill.

Ranger 1. Bon Hill, 2. Lamer, 3. Hall, 3. Bon Hill.

Fanny Y. 2

Fanny Davidson 3

Dolly Gray and Fritz also ran in the first heat, but were afterwards withdrawn after their owners had made an unsuccessful protest against the other competitors on the ground that they were too large to be called ponies.

A HALF-MILE MATCHED RACE BETWEEN DANDY, OWNED BY J. L. PATE, STRATHCONA, AND LITTLE JIM, OWNED BY JAS. SLEMMER, OF EDMONTON, WAS WON BY LITTLE JIM IN AN EXCITING FINISH.

The ball game between Fort Saskatchewan teams and Edmonton resulted in a one-sided win for the capital boys by a score of 7 to 3. McCulloch pitched a splendid game for the home bench but the support he got was poor. Miller in the box for Edmonton was hit rather freely but the field gathered them all in at critical moments. Garrison umpired.

THE LINE-UP WAS—

Edmonton—Boston, 3b, White, 1b, Connell, c, Miller, p, McQueen, 2b, Gilling, 2b, Campbell, r.f., Whitford, c, f, Flavell, 1 f.

Fort Saskatchewan—Atkinson, 3b, Poppy, 1b, McCulloch, p, Simmons, 1b, Diamond 1 f, Atkinson, c.f., Miller, c, Lamer, r.f., Hall, 2b.

LAMONT NEWS

FIVE WEATHER FOR THE FARMERS AT PRESENT.

A fine rain has fallen—two nights of it we had, and just the thing required. The grain was lagging through the intense heat and drying wind. Farmers are glad. The prospects were never better for a good crop. The writer has been in Alberta, finding out how this Canada of ours has been betrayed by her friends. What plundering has been going on in the dark! Those plunderers must be nipped, and yet our honest Frank Ariel all but told to hide their heads. First, think of Frank Oliver doing this. What is he coming to? A gradual decline in the answer.

We trust Mr. Ames' trip to Sunny Alberta will open blind eyes. How aggravating this trip will be to Orit Lamont. Duggan & Marshall will have to take a back seat. Duggan may be all right with his late logic permeating around among simple honest farmers, but he ought to remember there are other men in existence, who are far beyond him.

Mr. Martineau held a meeting in Limestone Lake school house lately. Mr. D. Marshall and Mr. Dabie, of that district, are both Conservatives, and their influence is wide. They haven't much use for those weak-kneed Grits, who are, crying peace, peace, when there is no peace.

can be Misnomer left. He ought to have said it to big concerns but to individuals. Few individual home-owners will take up land in that dry belt. It requires men with capital. It is all practice with little or no water, lots of alkali, lots of sand hills. We have been there and know. North Alberta is theocracy. How Frank hates men like Mr. Ames, M.P., who marched into the dark places of the Interior Department, finding out how this Canada of ours has been betrayed by her friends. What plundering has been going on in the dark! Those plunderers must be nipped, and yet our honest Frank Ariel all but told to hide their heads. First, think of Frank Oliver doing this. What is he coming to? A gradual decline in the answer.

The Conservative Platform

As Enunciated at Halifax and Other Places by Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

- Honest appropriation and expenditure of public moneys in the public interest
- Appointment of public officials upon consideration of capacity and personal character and not of party service alone.
- More effective provisions to punish bribery and fraud at elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so amended
- A thorough and complete reformation of the laws relating to the Civil Service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination
- Such reform in the selecting of members of the Senate as will make that chamber, a more useful and representative body.
- A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.
- The management and development of the public domain (in which are to be included great national franchises) for the public benefit and under such conditions that a respectable proportion of the increment of value arising therefrom shall inure to the people.
- The operation and management of our government railways by an independent commission free from partisan control or interference.
- Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates between the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.
- The re-organization of the present railway commission as a public utility commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.
- The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.
- The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration, after proper inquiry as to cost, of a system of free rural mail
- A fiscal policy which will promote the production of all useful articles that can be advantageously manufactured from or by means of natural resources, having due regard to the interests of the consumer as well as to the just claims of our wage-earning population.
- The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire
- The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.
- The unimpeded maintenance of all powers of self government which have been conferred upon the Provinces of Canada under the constitution.

A PROPHETIC VISION

Telegram

When Sir Richard Cartwright spoke of a future House of Commons consisting largely of needy adventurers who were making use of their support of the Government for the purpose of obtaining substantial benefits for themselves, he must have strained his prophetic eyes to a view of parliament under Sir Wilfrid Laurier's leadership.

The total membership in the House of Commons is about 214. Since the year of grace, 1896, there has been no less than 70 members of the House, all good Liberals, translated to other spheres of activity. They have applied for and obtained all sorts of jobs from Lieut. Governors right down the line, and of the remaining Liberal members not a few are only waiting at the present moment for a meeting of the cabinet at which they too will be appointed to remunerative billets.

It is announced that the ministers are to reassemble today at Ottawa for the purpose of considering the

needs and necessities of their supporters with respect to vacancies existing on the Railway Commission, on the Quebec Bridge Commission, in the Senate and in the Post Office and Customs service. In other words, there are some fat positions which some Liberal members of the House of Commons have persuaded themselves they would be able to fill with conspicuous ability, to say nothing of the pleasure that would be attached to a permanent position at a remunerative salary, out of the public treasury.

They do say that our old friend Hon. Thos. Greenway would like to be one of the Western Railway Commissioners, and so would W. A. Gauthier, M.P., for the Kootenays, who after a judicious sizing up of the home situation decided that he would not again be a candidate. Members Kennedy, of New Westminster and MacPherson of Vancouver, have selected herds that look good to them, if they can get them, while other Western Liberals are reputed to have their weather eyes turned on the good things, to say nothing whatever of that County Court Judgeship so much coveted.
